PROFESSIONAL EXPERIENCE

Web Developer | Rightjob Solutions

Zamboanga City | July 1, 2026 – September 11, 2026

- Developed and customized Discover Zamboanga, a WordPress-based tourism and business directory, including its website structure, functionality, content organization, and responsive user experience.
- Optimized Discover Zamboanga using SEO, AEO, and GEO strategies, contributing to improved search visibility and a No. 1 search ranking.
- Developed and maintained WordPress/PHP websites and implemented website, content, and functionality improvements based on client requirements.
- Built and maintained content publishing and syndication workflows for client websites and digital platforms.
- Created digital marketing materials, social media content, and performance reports for client campaigns using tools including Metricool and Canva.
- Conducted and supported photoshoots and video shoots for client marketing campaigns and digital content.
- Developed a JARVIS-style AI agent using Codex CLI and MCP, integrating tools and workflows and testing AI-assisted automation processes.
- Prepared digital visibility and partnership presentations for prospect outreach and client initiatives.

Web Developer Intern | Rightjob Solutions

Zamboanga City | February – May 2026

- Developed and customized WordPress and PHP websites according to client requirements while maintaining website features, content structures, and backend functionality.

Web Developer Intern | AXZTech

Zamboanga City | Second-year OJT

- Built interactive web components using React, JavaScript, and Supabase; integrated authentication, data retrieval, and backend functionality into frontend interfaces.

Freelance CCTV Installer and Maintenance Technician | Self-Employed

Second to Third Year of College

- Installed and maintained residential and commercial CCTV systems, including network setup, cable routing, troubleshooting, and hardware inspections.

Student Assistant and Data Entry Specialist | ZPPSU Scholarship Office

First Year of College

- Organized student records and scholarship documentation to support accurate data entry and office reporting.

SELECTED PROJECTS

Discover Zamboanga | Tourism and Business Directory — Developed a responsive local tourism and business directory using WordPress, with category filtering, search optimization, SEO improvements, and content management capabilities.

JARVIS-Style AI Agent — Developing an AI-powered personal assistant using Codex CLI and MCP to connect tools, automate workflows, and experiment with AI-assisted development.

Guest Posting Calendar Scheduler — Developed a structured content scheduling system for managing guest-post publishing schedules, assignments, and workflow organization.

Bert Collection Toga | Rental Management Application — Developed a responsive gown and toga rental application with booking inquiry functionality.

PracPro LMS | Capstone Learning Management System — Engineered dashboard features, backend schemas, authentication, and application state logic for a learning management platform.
